

AYUSHI GUPTA

SOFTWARE DEVELOPER

9131679576 | infoayushigupta09@gmail.com | Chhattisgarh, India | <https://www.linkedin.com/in/ayushi-gupta09>

Profile Summary

Software Developer with hands-on experience in web and mobile application development. Skilled in building scalable, high-performance, and user-friendly applications with a strong focus on quality and performance. Experienced in cross-platform mobile development, backend integration, and application deployment. A collaborative team player with a proven ability to deliver reliable solutions in fast-paced, agile environments.

Experience

Android Developer

Apr 2026 - Present

Gim Info Solutions Private Limited

- Developing and maintaining cross-platform mobile applications for Android and iOS using Flutter, along with native Android development using Kotlin, focusing on scalable, high-performance, and user-friendly applications.
- Implementing state management using GetX and BLoC, integrating RESTful APIs, and utilizing Firebase services to deliver seamless application functionality.
- Publishing and maintaining applications on the Google Play Store and Apple App Store, including app submission, versioning, release management, and updates.
- Collaborating with UI/UX designers, backend developers, QA engineers, and product teams to deliver high-quality features within project timelines.
- Troubleshooting, debugging, and optimizing application performance to improve stability, responsiveness, and overall user experience.
- Using Git and Bitbucket for version control, branch management, and collaborative development throughout the software development lifecycle.

Software Developer

Oct 2023 - Apr 2026

Sthanave Technologies

- Managed project timelines and collaborated with cross-functional teams, including designers and developers, to ensure timely delivery and client satisfaction.
- Developed responsive and user-friendly web applications using React.js and Next.js, ensuring an optimal user experience across devices.
- Developed and maintained cross-platform mobile applications for Android and iOS using React Native, with a strong focus on performance, functionality, and user experience.
- Contributed to software enhancements that improved overall system efficiency and application performance.
- Utilized Git and GitHub for version control, feature branching, code integration, and collaborative development.

Internship

Jan 2023 - Mar 2023

Kandid Technologies

- Completed a 1.5-month internship as a Junior Software Developer at Kandid Technologies.
- Developed an Employee Management System website using HTML, CSS, JavaScript, jQuery, SQL, and ColdFusion.
- Created user interfaces, implemented interactive features, managed database interactions, and ensured smooth functionality.
- Enhanced web development skills and gained practical knowledge.

Education

- **Master of Computer Application**
Shri Shankaracharya Professional University, Bhilai 2021-2023
- **Bachelor of Computer Application**
VYT PG Autonomous College, Durg 2017-2020
- **Higher Secondary Education**
Saraswati Vihar English Medium School, Bhilai, CG March 2017

Skills

- - **Web Development:** HTML, CSS, JavaScript, Bootstrap, React.js, Next.js, Medusa.js
 - **Mobile Development:** Flutter, React Native, Android Studio, Kotlin
 - **State Management:** Redux Toolkit (React), GetX (Flutter), BLoC (Flutter)
 - **Backend & Database:** Node.js, Firebase, MySQL, SQLite
 - **Firebase:** Authentication, Cloud Messaging (FCM), Analytics, Crashlytics
 - **Version Control:** Git, GitHub, Bitbucket
 - **API Integration & Testing:** Postman, RESTful APIs
- - **App Deployment:** Google Play Store & Apple App Store (App Submission, Publishing, Version Management, Release Management)

Projects

- **Educational App**
Currently developing an education app using React Native, Redux to create an interactive and user-friendly learning experience. The app features dynamic content delivery, seamless navigation, and responsive design to support diverse educational needs and enhance user engagement.
- **Medusa.js Marketplace Platform**
Developed a multi-vendor marketplace with vendor registration, product/order management, bulk buying, and quote workflows. Admins can manage vendors, products, and approvals. Built with Next.js, Node.js, PostgreSQL.
- **Tenaz App**
Worked on a digital currency mining application where users can mine coins daily based on app engagement. The app includes rewarded ads, user reward systems, and mining with low power consumption. Contributed to improving ad logic, enhancing stability, and preventing crashes during the ad experience. Technology used: React Native
- **IB Next App**
Developed a secure real-time chat app for team collaboration with group chats, DMs, media sharing, and announcements. Ensured centralized data storage and sync using React Native, SQLite, Node.js, MySQL
- **ABIS CRM App**
Developed the frontend of a React Native CRM application for field employees with GPS-based attendance, map-tracked visits, leave management, and KPI monitoring. Collaborated with the backend team to integrate APIs and deliver a seamless user experience.

● Menupalz App

Developed a multi-role React Native application for customers, restaurants, and ambassadors. Implemented features including QR-based reviews, restaurant management, referral rewards, deal cycles, coupon redemption, and RESTful API integration.

● MyIB App

Contributed to the frontend development of a React Native application by implementing responsive UI, business logic, and RESTful API integrations. Worked closely with the backend team to deliver new features and ensure a smooth, intuitive user experience.

● GimBooks Android App

Contributed to the development and enhancement of a Kotlin-based Android application by implementing new features, resolving bugs, and improving existing functionalities to enhance application performance and usability.

● Invoice Maker by GimBooks

Developed a cross-platform invoicing application for the Saudi market using Flutter, supporting both Android and iOS. Implemented end-to-end features, integrated RESTful APIs and Firebase services, and developed ZATCA-compliant e-invoicing functionality, including invoice generation, QR code support, and tax compliance features, while delivering a scalable, high-performance user experience.

Certifications

● Rising Star of the Year Award

Honored during Foundation Day celebrations at the office for exceptional performance, innovative contributions, and commitment to excellence.

● Vocational Training in MERN Stack

Gained experience in MongoDB, Express.js, React.js, and Node.js through comprehensive online training.
